# The Growing Pains of Floating Offshore Wind

A stepping-stone project  
perspective

**Charlotte Cochrane**

Stakeholder Manager for the Salamander  
Project

All-Energy 2023

# Working with the Oceans

## Our Vision

To be the leading early-stage developer of sustainable and transformative marine projects, working with the oceans and enabling communities to benefit from blue growth

## Our Values

### Integrity

Think big picture. Do the right thing regardless of circumstances, situation and influencing factors. Motivate others to do the same

### Courage

Innovate, be decisive and confident, learn from mistakes and evolve. Make things happen. Demonstrate this to others

### Passion

Be passionate about developing projects that sustain oceans and build local communities for future generations. Inspire others to want the same

### Diversity

Embrace and respect differences. Listen to and appreciate others. Value diversity. Promote equal opportunity. Be inclusive. Expect others to act the same

### Responsibility

Take ownership of your actions and outcomes. Look to add value. Find solutions. Collaborate and empower others. Hold others accountable

# Who we are

A leading early-stage project developer in the following areas:

Floating Wind

Wave and tidal

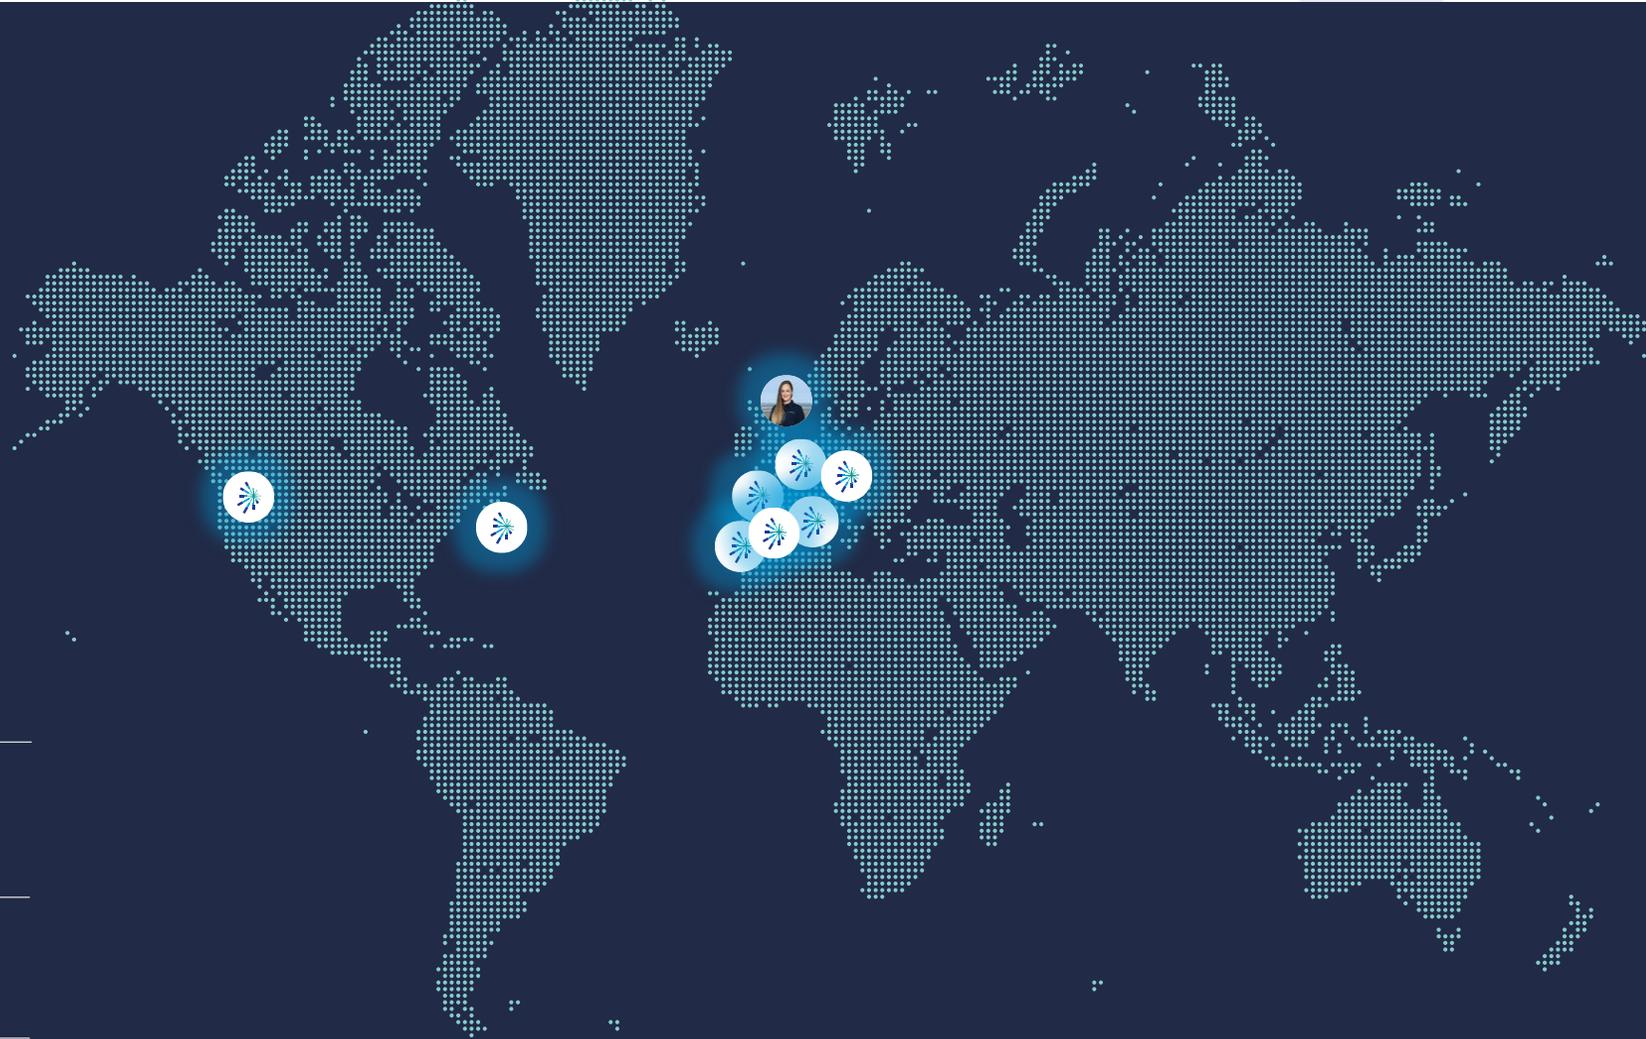

E-Fuels

Sustainable Aquaculture

Deeper Blue Economy

Headquartered in Cork

Nine offices worldwide

Cork

Dublin

Edinburgh

Hamburg

Spain

Newquay

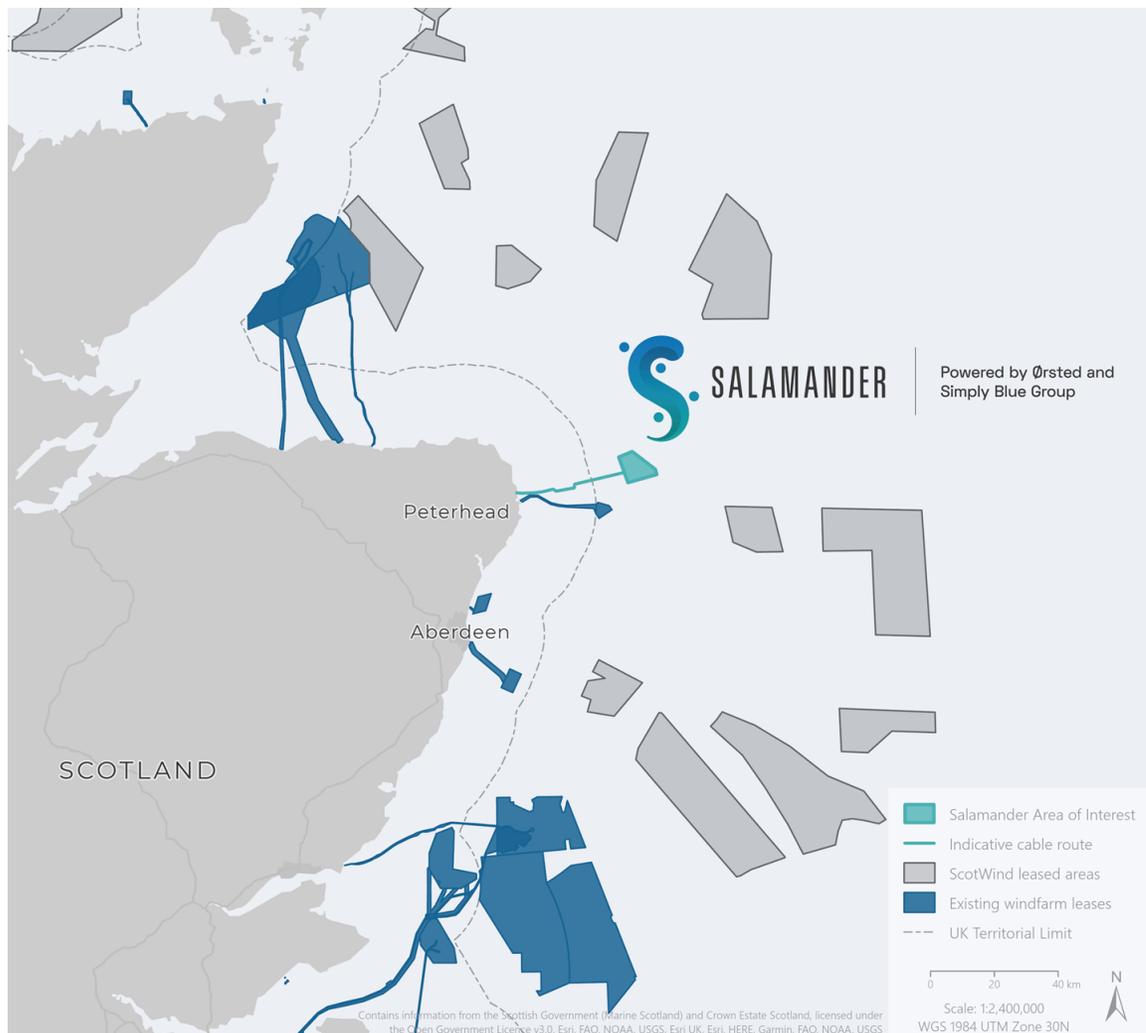

Portland

Pembroke

Halifax

# Salamander Project

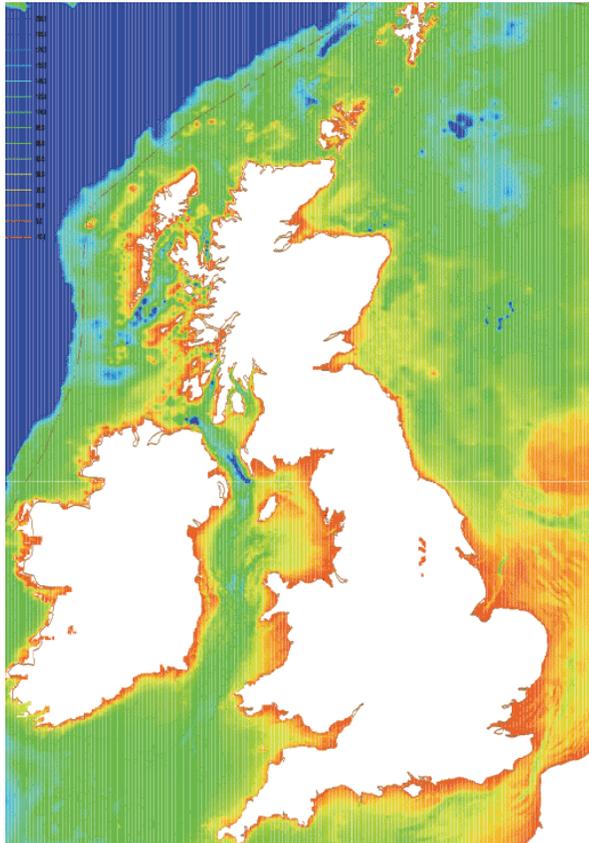

A **100 MW** floating offshore wind project approximately **35km east of Peterhead**

Awarded an **innovation seabed lease** from Crown Estate Scotland in the innovation track of their INTOG leasing round

To be fully operational in **2029**

Must deliver in time for **ScotWind**
